

# Creating content for Lume Pad using the After Effects Template

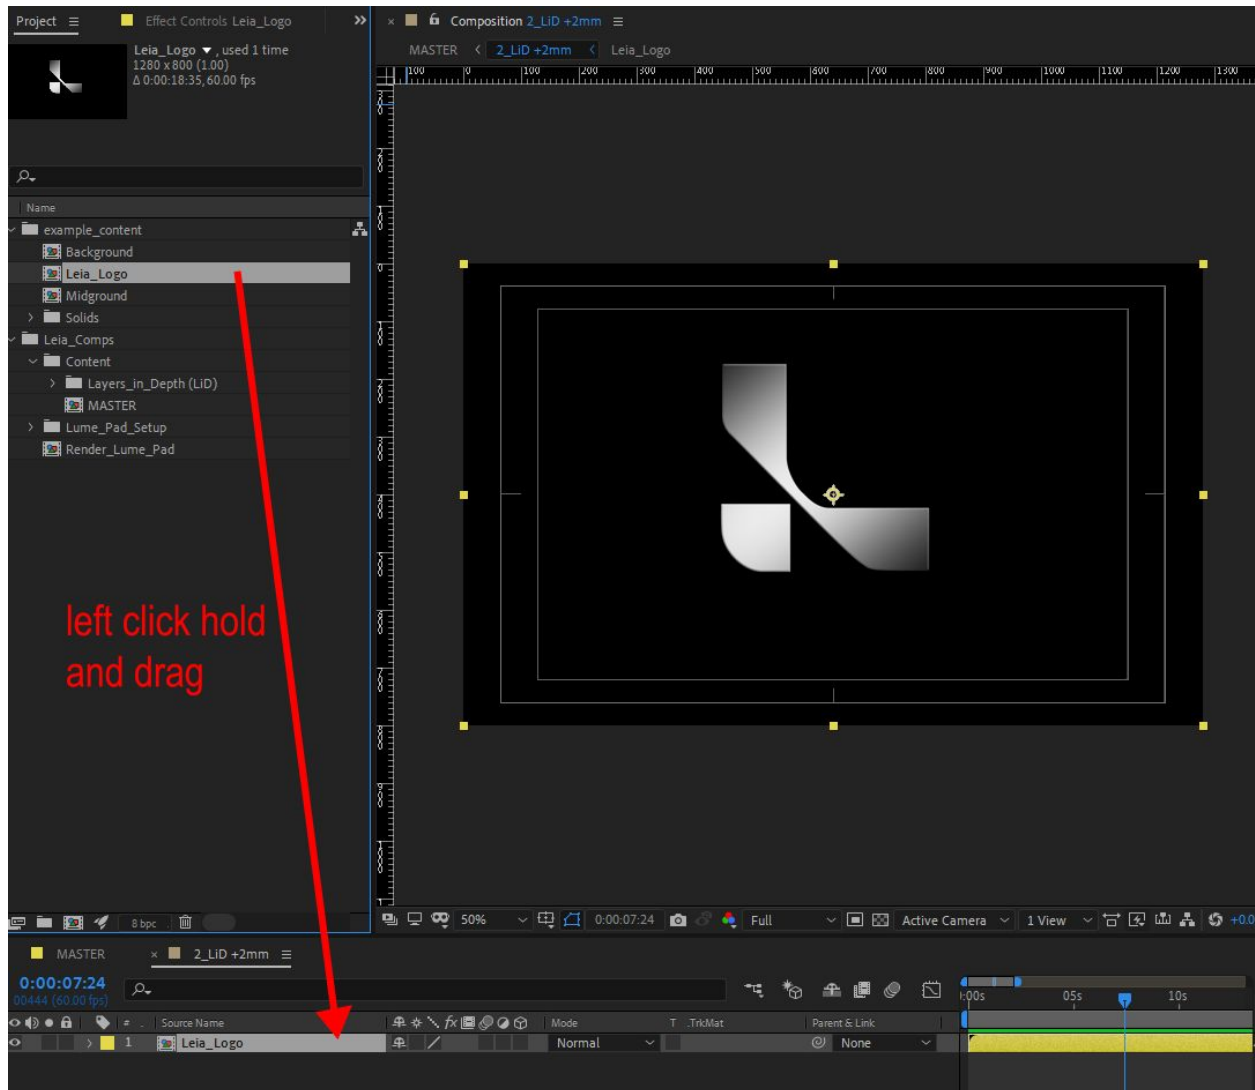

1. Open the MASTER comp (Double click MASTER in the folder Leia\_Comps>Content)

2. Open “2\_LiD +2mm” comp (double click “2\_LiD +2mm” in the MASTER comp).

3. Move the “Leia Logo” comp from the “example\_content folder” into the “2\_LiD +2mm” comp.

4. Return to the MASTER COMP

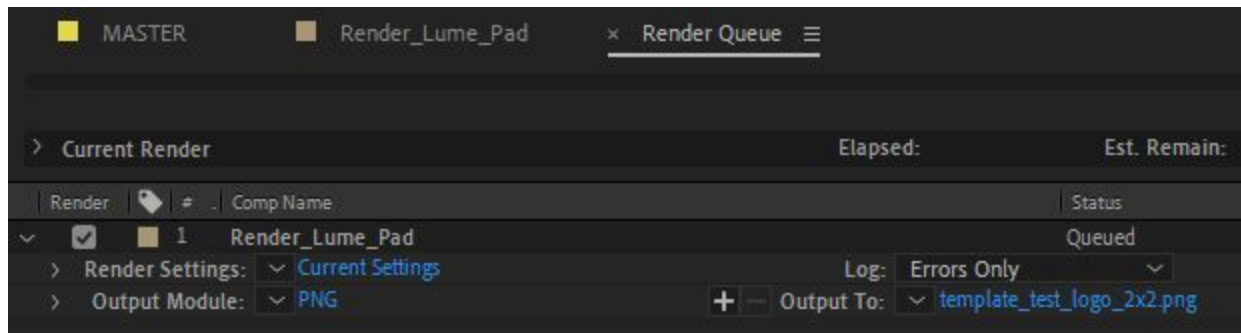

5. Open “4\_LiD -2mm” comp (double clicking “4\_LiD -2mm” in the MASTER comp).

6. Move the “Midground” comp into “4\_LiD -2mm” comp

7. Return to the MASTER COMP

8. Open “6\_LiD -8mm” comp (double clicking “6\_LiD -8mm” in the MASTER comp).

9. Move the “Background” comp into “6\_LiD -8mm” comp
10. Open “Render\_Lume\_Pad” comp and render a frame (Ctrl+Alt+S)
11. Change “Output Module:” to PNG and “Output To:” to a file name ending with ”\_2x2”

- 12: Display rendered frame using “Leia Player” on the Lume Pad.
